

JASON'S STORY

Jason came to live with us and our two foster boys in January of 2005. He is 13 years old and in the 7th grade and claims to have lived in 48 states.

School is one of his favorite past times. He is an honor student and was picked the student of the week. Religion is also an important part of Jason's life. He attends church and church school regularly and is a member of the youth group.

This summer he will spend a week at Y-camp, be on softball team, and bowling league. Of course, music and video games round out his life. He hopes to be reunited with his bio-family, but in the meantime he is a welcome addition to our family!
