

JEN'S STORY

Our beautiful foster daughter Jen came to live with us in Feb. of 2004. Jen has been in foster care for over a year now. Jen came to us a scared and confused young lady who had been sexually abused. During Jen's time with us we have seen justice served to the person who was abusing Jen.

Jen has bloomed while she has been here. She has become active in sports and music. She has made the honor roll two times this school year. It has been amazing to watch Jen change before our eyes. Jen and my husband and I attribute the changes in Jen to being in a loving, caring and Godly environment
